bluesign system partners are responsible entities within the textile supply chain, committed to applying the bluesign system. By being a system partner, they adhere to a set of high standards aimed at ensuring the responsible use of resources, reducing environmental impact, and promoting safe working conditions throughout the supply chain.

The bluesign system is an internationally recognized framework that helps companies implement clean chemicals, reduce waste and emissions, and make environmentally responsible choices. Partners benefit from bluesign's expert knowledge, which empowers them to deliver sustainable products that people can trust.
